Spiral christmas tree led

First there were candles, then bulbs, then string lights, and then yarn. The technology around the holiday lights is only evolving, and now that we have the best artificial Christmas trees with LED lights, it's as easy as ever to add some warmth and cheer to your home. After all, evenly stringing the lights is one of the most time-consuming steps, so when choosing a pre-lit Christmas tree instead, you are so much closer to hanging ornaments. According to Consumer Reports, there are some must-have features to consider when shopping for an artificial tree. The best prelitthrtical artificial Christmas trees have all hinged branches, a solid base and fire retardant needles, but it is also important that you choose the right type of bulbs. LED lights use less power and fade instead of burning out, so you don't have to deal with an entire dead thread because of a single bulb. Of course, convenience is a big factor here, so all these best-selling artificial trees are extremely easy to set up. They come in three or four sections and have the aforementioned hinged branches that just fall into place. After that, simply connect to the lights, fluff the branches, connect it, and you're ready to start decorating.1National Tree Carolina Pine Artificial Christmas TreeAvailable sizes: 4.5, 6.5, 7, 7.5, 9 feet No joke, it looks like it's real, says one reviewer, and dozens more agree that it just lacks the woody scent and messy needles. Thanks to its full, rounded branches, multicolored foliage and built-in flocked pine cones, the National Tree Carolina pine tree will get all your guests fooled. It is pre-tense with 750 bright lights, and it is resistant to fire and allergens. No wonder buyers have given it a 4.5-star rating overall after 1,000 reviews. While, it's a little more expensive and it will require a good amount of fluffing before it looks like the picture, reviewers say it's worth the money and trouble. According to one reviewer: I was surprised by the pine cones they look realistic. The lights on the tree are enough you do not need to add extra light, they are bright and look elegant. The setup was simple. It took about 10 minutes to set up. The needles did not fall off and the cleanup was simple, well worth the money and would recommend to everyone. 2Evergreen Classics Color-changing Spruce Artificial Christmas treeAvailable sizes: 6.5, 7.5, 9 footColored lights are whimsical, but white lights are so stylish - how can you possibly choose? Luckily, Evergreen Classics offers spruce both, so you don't need it. Its 600 low-voltage LEDs switch between clear, multicolored or both (back and forth from one to the other) using the included remote control, and it even comes with a foot pedal. Buyers say it is extremely easy to set up and are so lush and real-looking that they are filled with childlike wonder. According to one reviewer: Very fast delivery on this tree and it looks better personally than in the online photos! My previous tree was so I was nervous to buy a new one online, but I was so pleasantly surprised at how pretty it was personally. Especially after being decorated. 3National Tree Downswept Douglas Fir Artificial Christmas TreeAvailable sizes: 7.5 feet (other sizes are available in different styles of trees)This easy-to-assemble Douglas fir by the National Tree Company has won over many fans on Amazon. Available in just one size (7.5 feet high), it is slightly less customizable than other trees on this list. However, The National Tree Company does this in a few different styles and sizes, so there are other options if this height doesn't match your space. It has 750 clear LED lights equipped with special locks to keep the bulbs from falling out. They are also flame resistant and, according to reviewers, easy to set up and take down. According to one reviewer: We've always had real trees, and this year decided to go with an artificial one. Very nice and solid wood, easy to put together. I would definitely buy another one if I needed one. 4Balsam Hill Classic Blue Spruce Artificial Christmas TreeWhen it comes to Balsam Hill classic blue spruce, you get over 2300 branches and 850 LED lights – but you also get plenty of bonuses. This tree comes with a free storage bag, cotton gloves, replacement bulbs, extra fuses and a foot pedal, so you can easily turn it on and off. It even has a three-year limited warranty as well. We were blown away at the level of detail, a reviewer raves. This tree was going to last us for the rest of our lives. According to one reviewer: The tree is solid and the pieces go together without any problem. I am very pleased with my balm hill tree. Can't wait until next Christmas. 5Pencil Slim Artificial Christmas TreePencil Slim Artificial Christmas TreeAmazonFor college suites, cramped apartments and cozy cottages, the aptly named Pencil Slim Christmas Tree. Since it is only about 20 inches in diameter, it fits easily into tight corners or against walls, so you can enjoy some holiday heat without clutter. This one has over 300 lights and has soft-tip branches, you should back in it by accident. Remember, this is only available at a height (7 feet), so pay attention to the ceiling height before purchase. According to one reviewer: I searched high and low for a thin tree that could fit in a small space. This tree is perfect! It is still tall, but fits perfectly in a narrow area. And it's prelitened! She loves it. She was able to fit her favorite ornaments on it, and it looks beautiful. 6Easy Treezy Pre-Decorated Christmas TreeEasy Treezy Pre-Decorated Christmas TreeAmazonAvailable sizes: 7.5 feetExtended work schedules, massive shopping lists, busy weekends - for some it's the most hectic time of year, so you might not have much time to put up a tree. According to reviewers, the Easy Treezy Christmas tree takes a total of 90 seconds to fully assemble, and that's because it comes prelit and already The four sections snap together with a genius magnetic design, so all you have to do is stack the pieces, plug in the bright LED bulbs and enjoy. You can get this in seven different decorated designs, as well as some less ornate styles if there is more to your liking. According to one reviewer: There was almost no fluffing, and there are no holes. I really dislike setting up artificial trees, with their poky branches and time-consuming fluffing. One of the best things about this tree is taking down is just as easy. I had it down and back in the box in just a few minutes. This system is brilliant! 7National Tree White Dunhill Fir Artificial Christmas TreeAvailable sizes: 4.5, 6.5, 7, 7.5, 9 footWhite trees have a certain magical elegance, and this Dunhill fir from the National Tree is no exception. The 2,500 hinged branches have snow-white needles and 750 LED lights equipped with bulb locks, so if you burn out, the others remain lit. It's packaged in a storage box that you can reuse, and it's also protected by a one-year warranty. One note: Since it is white, it is prone to discoloration, then carefully wrap it and store it somewhere clean. According to one reviewer: I use this 4.5 white tree on a large round glass sofa table instead of buying a large tree sitting on the floor. This small tree will be easier to store than a large one. Must be fluffed to look drunk, but it wasn't hard. All the lights work. This was a good finding. Very pretty with a traditional Christmas tin reform. 8Best Choice Products Pre-Lit Spruce Artificial Christmas TreeAvailable sizes: 6 feet, 7.5 feet, 9 feetYou'll be hard pressed to find a quality artificial tree for under \$150 in store - never mind a prelitone - but Best Choice Products spruce offers 6 feet of pre-lit festivities for just over \$100. With nearly 800 flame retardant branches and 250 LED lights, it's anything but sparse, and the solid metal frame provides durability despite the affordable price tag. Should you choose to go higher, the 7.5- and 9-foot options are both under \$250, which is practically unheard of. Remember: You get what you pay for with this tree, and some reviewers have had problems with small parts of the lights that aren't working properly. According to one reviewer: Love the tree!!! It came just before Thanksgiving. Easy to assemble and super fun to fluff. I'm not a big fan of the wooden stand, because I usually go overboard decorating the tree. The tree seems to be holding up well and I am very happy for my purchase. Scott For decades, many of us have decorated Christmas trees in our homes with baubles, candles and gorgeous ornaments - but why do we have Christmas trees? And where does this tradition come from? Bringing evergreen trees indoors has traditionally been used to celebrate winter festivals - both by Genens and Christians - for thousands of years. Genus would decorate their homes in the winter solstice with tree branches as a symbol to think about it was just around the corner. Fir trees were also used by the Romans to decorate their temples at the Saturnalia Festival, while Christians used it as a sign of eternal life with God. Germany is also heavily credited with starting the Christmas tree tradition, when many Christians began decorating trees brought in from outside. Those who didn't have trees - or couldn't afford them - would create their own smart options using tree pyramids instead. Some of the first Christmas trees in Germany were decorated with delicious edible decorations, such as gingerbread men and gold-covered apples (glass makers would also hang special little ornaments they had made themselves). Who first brought a Christmas tree into the home? The 16th-century preacher, Martin Luther, was recorded as one of the first to bring a Christmas tree into his home —and one of the first to also shine a light on the tree. According to tradition, one night before Christmas, Martin was seen walking through the woods and looked up to see the bright shiny stars sparkling through the tree branches. To recapture this scene for his family, he placed a tree in his living room and wired his branches with beautiful lights. mrsGetty Images When did the Christmas tree first come to England? While Queen Victoria and Prince Albert are said to be the ones who made Christmas trees popular in England in the 19th century, it goes back much further than this. The tradition came from Germany, where King George III's wife was born. It was believed that his German wife Charlotte used to decorate a Christmas tree with his family in the 1760s. Charlotte had a tree set up at Queen's Lodge in Windsor for a children's party for those who were rich and noble. Not long after, having a tree had become popular with some rich families as well. In 1848, a drawing of the 'Queen's Christmas tree at Windsor Castle' was published in addition to the Illustrated London News. After many had read this, decorating trees began to rise in popularity. What does the Christmas tree symbolize? Long before Christianity, plants and trees had a special significance with many people in the cold winter months. Just as many of us decorate our homes today, ancient cultures would hang evergreen branches over their doors - many even thought that this was something that could keep witches, evil sprites and diseases at bay. Back in 2004, Pope John Paul called the Christmas tree a 'symbol of Christ'. He said that this ancient tradition exalts the value of life and reminds Christians of the tree of life, found in the Bible's first book, Genesis. Scott How have the Christmas trees changed now? Like the early Christmas trees, we still decorate ours with baubles and hang them with light. Buying a real Christmas tree is still a tradition for many families, but over the years we have seen an increase in the number of artificial trees, especially pre-lit Christmas as people choose fuss-free, low-maintenance trees that they can reuse every year. We've also seen decorations take a more extravagant turn, with trends such as rainbow trees, sunflower trees and multicolored party trees forming the way people decorate, as well as wooden Christmas trees and twig trees. These alternative trees gain more popularity each year, and some households ditching trees altogether, instead choosing to decorate a potted plant like

a Christmas tree. Do you like this article? Sign up for our newsletter to get more articles like this delivered straight to your inbox.
